

With the recent consolidation of radio stations, I decide to purchase XM Satellite radio to give me a better choice over my listening habits. I am very concern over the attempts by the NAB to limit my ability to receive traffic and weather on XM. It is important to allow Americans the freedom of choice to decide what information they want and how they want to receive it. I made my choice as freedom loving American to purchase satellite, and the NAB does not have the moral right to limit my decision or choices. Please help us block HR 426 and allow me to continue making choices for myself.
